WHY WE'RE DIFFERENT?

We do pride ourselves on producing the highest quality Teachers BUT we equally understand that your interest in this course may have nothing to do with Teaching yoga.

Instead, you may be seeking a deeper, richer understanding of YOU and how Yoga can assist you in your life both ON and OFF the mat.

Our teacher training programme is a powerful catalyst for personal transformation. Dive deeper into your practice, confront beliefs that hold you back, and discover your authentic self. Training with Flow Space will help you unlock the best of you and equip you with everything you need to be a strong and confident teacher if you choose to take that path.

You'll learn from passionate and highly experienced teachers, imparting wisdom from their years of teaching Hot yoga. We deliver a comprehensive, empowering programme, equipping students with the confidence and know-how to start teaching yoga with joy and authenticity as well an opportunity to live into the highest version of themselves.

YOGA & YOU

Discover how Yoga extends far beyond the mat. Dive deep into the vast landscape that is YOUR mind and understand how it's the key to sustained success. Success being whatever you define it to be... more connection, more energy, more love, more understanding, more self awareness, more happiness, more joy etc

Even a great strategy won't succeed without the right mindset to implement it. When you change your mindset, you are then able to transform your life. Most people are held back by their own **limiting beliefs** – they become trapped in a cycle of negative self-talk and become convinced they're unworthy or unable to accomplish their goals.

This is where the practice of YOGA begins...

DO I NEED TO HAVE AN ADVANCED PRACTICE TO APPLY?

No. We look at passion, compassion, commitment to learning, living consciously and the desire to share the practice much more than a person's physical abilities. Many people come to our trainings with widely varying backgrounds. We realized early-on that, if we excluded people based solely on their physical practice or experience-to-date, we would have kept a lot of amazing people with soaring spirits out of the program. So we've never set any arbitrary posture requirements that ultimately tell us very little about a person's ability and desire to become a great teacher.

CAN I DO THE TRAINING JUST TO DEVELOP MY OWN PRACTICE, RATHER THAN TO TEACH YOGA?

Yes. Our course is designed to help students reach the necessary level to qualify as teachers. Most of our past students who initially shied away from Teaching now teach yoga, either full or part-time, although some chose to do the course to develop their personal practice and deepen their understanding of yoga.
